

Now offering YOU the opportunity to learn about **Cast Stone** while earning learning units in **“Health, Safety and Human Welfare”**. Available through the Cast Stone Institute.

The American Institute of Architects Continuing Education System—AIA/CES Registered Provider Program Summary

Description:

A 1 hour PowerPoint Program designed to educate you about Cast Stone and how it compares to similar building products.

Learning Objectives :

The key objective to learn what product to specify. We will look at Cast Stone and other similar building products that are often specified under the Cast Stone section (04720). We will look at the materials, and production methods of these products along with their physical properties such as, strength, durability, finishes and applications. You will also learn the difference between Cast Stone and Architectural Precast, information about the Cast Stone Institute and what it takes to be a member will also be covered.

How Taught :

The CES facilitator utilizes a PowerPoint presentation to provide an in depth overview of Cast Stone and similar building products. A binder containing valuable information from the show will also be provided to each participant. Also included in the binder will be a (CD) containing the Cast Stone Specification and Technical Bulletins.

A/V Needed:

Electrical power and a screen for the PowerPoint Presentation (The CES facilitator supplies the laptop and projector.)

Target Audience:

Architects, specifiers, owners and other design professionals. This program meets every experience level with time designed into the program for questions and answers.

Cost:

There is no cost to bring this program into your firm. an in-depth overview of Cast Stone and similar building products. A binder containing an in-depth overview of Cast Stone and similar building products. A binder containing valuable information from the show will also be provided to each participant. Also included in the binder will be a (CD) containing the Cast Stone Specification and Technical Bulletins.
